If you are submitting either a Design & As Built or Interiors Project, is this submission for:

Design Review

Response

Dear Michelle and Alex,

CONGRATULATIONS!

The Green Building Council of Australia is very pleased to announce that **Western Sydney University Bankstown City Campus Development** has been awarded a **6 Star Green Star - Design & As Built v1.3 Design Review Rating**, which represents World Leadership in sustainable design.

Please find attached the final results of your assessment.

Registering a project for Green Star - Design & As Built v1.3 is a commitment to certify a completed building. However, the voluntary Design Review gives you extra confidence that your project is on the right track and provides an early opportunity to promote your Green Star promise to achieve As Built certification.

Next Steps:

Green Star Project Directory

- You've granted us permission to promote the Design Review rating. With your permission, your project appears in the [Green Star Project Directory](#).

Green Star logos

- The Green Star logo is your trusted-third party proof that you can market to your stakeholders. Michelle, as the applicant contact, you can download these logos at any time. Simply log into the [Green Star Project Manager](#) and select your project, and then choose "Project Files". You'll be able to download these directly. Please make sure you refer to the [Green Star Marketing Kit and Style Guide](#) when using these logos, as they are governed by a trade mark.

Green Star Certificate

- Your Green Star certificate is now available to download from the [Green Star Project Manager](#). We encourage you to showcase your achievement and can work with you to arrange specific branding appropriate to your project.

Marketing opportunities

- Let's work together to promote your Design Review rating. Please provide the most up-to-date contact details for your Marketing or Communications team to marketing@gbca.org.au or call us on 02 8239 6200 so that our Market Communications team can work with you to optimise promotion of your Design Review rating. Additionally, check out our [Green Star Marketing Kit](#), which has lots of interesting ideas to help you spread the word.

Media

- If you want to issue a media release, please email marketing@gbca.org.au and we can provide support and advice.

Feedback – Let us know what you think

- We are committed to continual improvement, and that means gaining feedback on your experience working with us. You will be contacted by the GBCA to answer 4 quick questions to share your thoughts on the customer service we provided. We appreciate you taking 10 minutes of your time to provide feedback. The valuable information you provide will help us to improve our services and make your experience even better on your next Green Star project.

As Built certification

- Once your project has completed construction, you can submit documentation for As Built certification. The process is the same as the Design Review certification process, with the documentation requirements laid out in the submission guidelines, guides and submission templates which are available on our website.

If you have any questions regarding your results or the Green Star certification process, please feel free to contact me or a member of the Green Star team.

Once again, congratulations on the Green Star Design Review rating!

Kind regards,

Jim Ng
